Friendly and helpful ; willing to give advice and go out of their way to help. A place to return to when I decide it's time to do TIG again.

The Best & Cheapest Argon supplier I can find. I get through 50 litre Argon bottles at a hell of a rate . Barnet welding supplies always have several 50 litre bottles in stock. Including a Saturday. Important. Thanks frank Alloywheelwelding.co.uk

I wanted to upgrade my mig welder and was recommended Barnet welding by a freind and can see why. Olly was very helpfull and took the time to give me plenty of options with all the pros and cons to each, without trying to push me into something unsuitable. He also went through the set up of the welder to make sure I was happy with it and got me sorted with gas, so no more disposable bottles. A one stop shop for all your welding supplies and gasses without the annual rental on the bottles.

Brilliant!

Great little shop, used for welding supplies and gas bottles - they know their stuff about all things welding related, tucked away though so ring first for directions....
